A Launch Your Kid Program

What is GYM 101?

Gym 101 is an advanced children's fitness & nutrition program that teaches children how to have a healthy body.

Why GYM 101?

1

According to the American Academy of Pediatrics, the number of preschool-aged children that are overweight has doubled in the last three decades due to lack of physical activity.

2

Children involved in regular & structured exercise earn better grades & have better social skills than those who are not.

Launch Your Kid is the leader in activity-based enrichment programs for young children. Our programs are specifically designed to engage your child's passion and introduce them to a world of opportunities.

Every Gym 101 class includes

Warm-up

Strength Building Exercise

Aerobic Activity

Team Building Lesson

Stretching & Cool Down
